

## Movin' On Up

To our rising 2<sup>nd</sup> grade parents,

Our wonderful year is drawing to a close! Excitement for summer and anticipation for next year's adventure is building. Summertime is perfect for splashing in the pool with friends and taking trips to fantastic destinations. It is also perfect for keeping or ramping up your child's skills in all areas. We would like to invite your student into a world of interesting games, engaging websites and enriching activities. From insightful book talks to scientific experiments and everything in between, this packet was created as a bridge between the magical world of First Grade to the magnificent land of Second Grade.

Your input is an invaluable resource. A survey regarding distribution of our summer packet along with delivery of content is attached to this letter. We greatly appreciate your time, gifts and talents and look forward to collaborating with you in the development of this tool.

Please return your completed survey to your child's classroom teacher by  
Friday May 14<sup>th</sup>.

Celebrating your child's success,

First Grade Learning Leaders
